NUMBER 18

Parcels Post Requirements

Ordinary Stamps Not Acceptable, and Return Address Necessary

The parcels post system in Lawrenceburg is proving of special interest, and at the same time somewhat mystifying to a number who would take advantage of its benefits.

There were a number of packages mailed here last week, the first to present a package being C. T. Crawford. It is absolutely necessary to have a return address in order to know to whom to report the matter if there should be anything wrong.

Ordinary stamps will not suffice, but regular parcels post stamps must be used on all parcels post packages, and where others are affixed they will be cancelled and the packages held and the proper parties notified.

All packages that have heretofore gone as merchandise at the one cent an ounce rate, will now go at parcels post rates, with the exception that anything up to four goes at the old rate and may have the regular stamps affixed. By the application of this rate anything above four ounces is rated as one pound, and thus a package weighing five ounces at the same rates to send to California would cost 12 cents, when the old merchandise rates would only be 5 cents.

The stamps are issued in various denominations and are a bright red, the designs being after that of the exposition stamps of a few years ago. The smallest is for one cent and the largest is for twenty-five cents, being about twice the size of the ordinary stamps. The due stamps are the same size but the color is green, and the design is after that of the old ship plaster, and looks it in miniature.

If you have a package for the parcels post the best thing to do is to see a postal official who will take pleasure in giving you all the information desired. If this is not convenient it would be well to remember that:

A return address is absolutely necessary to be placed on the package, in order that the proper party may be notified if anything should go wrong.

Parcels post stamps are necessary. If the ordinary stamps are placed on the package, they will be canceled and others will be required before the package is forwarded.

Second Term High School

Will Open January 20th 1913.

From present prospects the high school will open on the 20th, with the largest enrollment in its history. There must be some good reasons for the rapid growth and popularity of this school. Although nineteen counties established high schools before Lawrence county, yet our high school has the largest number of non-resident students in the state, and it maintains a standard of excellence and efficiency which is at once the pride of its students and the envy of other schools; furthermore, it is a working school. Idlers and time-serverers are not found here. It is true, some come to play, but soon either fall in with the procession or drop out of the ranks forever.

The attention of prospective students is called to the January term, which offers greater advantages, especially in vocational training, than heretofore. Those who expect to enter the university get the best training possible here. In this respect the teachers' normal class will give the same careful attention to the reading circle books as in other years and in addition instruction will be given in every subject taught in the public schools.

Classes in agriculture will be made more practical by reason of better equipment and facilities for demonstration work.

A business course on a tuition basis is offered to all graduates of the high school and to those who will graduate this year. Others desiring this course must give evidence of being able to use good English and put it in proper form; they must be quick and accurate in business calculations; neat and methodical in all their work. Any marked deficiency in any of the above qualifications will disqualify. Those who enter this course may continue through the summer until prepared to take a position.

The Bible department, the foundation rock upon which the high school rests, is more popular today than ever in the past. The man or woman who accepts the Bible as a guide to the right will soon link arms with success. This course is open to all and is recommended to all, but it is not compulsory.

For catalogues or additional information concerning courses of study, admission, or boarding, address D. C. STUNKARD.

Can You Read?

And If You Can, Can You Recollect What You Read?

Do not forget that all parcels you mail MUST HAVE the new, LARGE RED parcel post stamps on them. Old style postage stamps will not do, and are counted the same as no postage when placed on a parcel.

Recollect this, and it will save both you and the postmaster a lot of trouble.

Have parcels well and strongly wrapped and tied—and NOT SEAL—ED, and your return address must be written or printed on them.

The Parcel Post system will be a good thing if you use it properly.

Commercial Department

Added to Lawrence County High School

The action of the County Court on Monday in voting fifteen cents on the \$100.00 for the maintenance of the Lawrence County High School makes it possible to improve the efficiency of the school by preparing students for the actual affairs of life.

Special attention is called to the Commercial Department now being established. Those who take this course will be ready for positions in September as this department will remain open to students through the summer months. The subjects to be taught are as follows: book-keeping, penmanship, type-writing, commercial law, stenography and commercial geography.

A teacher of the highest culture and attainments has been selected for this department and will be here to take charge of the work on January 20th at which time the new term opens. As this department is the finishing touch to an education, and as it proposes to fit students for paying positions, a tuition of fifty dollars will be charged. If for any reason it does not suit a student to take the entire course, it may be divided in this way: Book-keeping alone \$25; type-writing \$25.

The course is recommended only to those who are proficient in penmanship, spelling, grammar and business calculations.

Write me a letter of your own composing and in your own hand writing, if you want this course, and I will tell you if you are prepared to take it. Address D. C. STUNKARD, Principal Lawrence County High School.

Endorsed at Home

Such Proof as This Should Convince Any Lawrenceburg Citizen

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Lawrenceburg adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

C. C. Lawrence, retired minister, Lawrenceburg, Tenn., says: "When I used Doan's Kidney Pills several years ago, they were of great benefit to me and at that time, I publicly endorsed them. I gladly confirm my former statement. I procured Doan's Kidney Pills from Crowder Bros. & Beekham's Drug Store, when I was suffering from backache and weak kidneys and they soon gave me entire relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. (Adv.)

Obituary

Gracy Lou Eddy daughter of Ray and Mary Brooks was born in Lawrence County, Tenn., September 27, 1912. Died December 27, 1912 being three months old. She was their first born and was a promising child. Her sickness did not seem serious until a few hours before she died. The young parents feel their loss very keenly.

She died at her grandparents' home, and they too feel as if one of their number had left them never more to return. Another precious bud has been transplanted to bloom in the paradise above. She will not come back to us, but we may all go to where she is and dwell there forever. Our loss is Heaven's gain.

Changes on Jan. 1 Of City Hotels

Mesdames H. M. White and Joe Kelton Take the Lawrenceburg Hotel and Mrs. Robinson the Galloway Building

There were changes in the business circles here on January 1st, the one of most importance being with the hotels. Mrs. H. M. White some weeks ago purchased the Lawrenceburg Hotel and with Mrs. Joe Kelton assumed charge on last Wednesday. The entire house will be well and fully equipped with new floor coverings and furniture. Both ladies are well known and capable conducting just such a hostelry as the good little city of Lawrenceburg needs. Mrs. Robinson, has leased the Galloway building, and needs no introduction to the people here as she has for many years been very successful.
